No. 83P.W., dated Bhagulpore, the 3rd August 1888.

From—J. BEAMES, Esq., Commissioner of the Bhagulpore Division and Sonthal Pergunnahs,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith the annual accounts and report on the road works of the Sonthal Pergunnahs for the year ending 31st March 1888.

2. The Sonthal Pergunnahs is a non-cess district, and the Local Self-Government Act is not in force there.

3. The original works executed during the year are enumerated in paragraph 3 of the Deputy Commissioner's report. They consist chiefly of projects for improving the means of crossing small streams. In three cases this has been effected by throwing a bund across the stream, and this, besides providing a road, also retains a useful supply of water for irrigation or other purposes. The expenditure on original works was Rs. 4,491, or 10 per cent. of the total expenditure of the year.

4. The repairs executed are reported to have kept the roads in fairly good order, and the roads which I personally inspected on my tour were very good indeed. The aggregate length of roads in the district is about 700 miles, and of these 565 miles were under repair. The expenditure was Rs. 23,500, or 52·6 per cent. of the total expenditure of the year. The average cost per mile of road repaired was Rs. 41·6. This is exclusive of repairs executed from the Government Estates Improvement Fund.

5. The expenditure on Public Works, exclusive of establishment, was Rs. 30,644, and the cost of establishment was Rs. 6,515, or 21·2 per cent of the outlay on works.

6. The amounts outstanding in the suspense account are in some cases exceptionally high, and steps are being taken to get them reduced if possible.

7. The estimates for the following works will be submitted to Government as soon as received:—

- (a) For constructing a bund across the Massaujore stream.
- (b) For constructing a bund across the Ranibahal stream.
- (c) For constructing a bund across the Huripur nala.

8. The Deputy Commissioner complains of the inefficiency of the funds at his disposal to meet the wants of the district, and it may be observed that if the outlay on original works be any guide as to the improvement of the district, very little progress in this direction was possible during the year. At the same time so much of the district consists of uplands with a surface of rock or gravel, that communication is often comparatively easy where no regular roads have been made. The district is therefore for practical purposes better off than it appears on paper.
